If you need to, you can send your children in to school to allow you to attend work.

Please only do so if necessary – not if there is someone else at home that can look after your children. This will help minimise risk and spread in schools. Please only send your child into school on the days you are actually working. If for any reason you don't need to send your child to school on a day you have told school you require a place, please inform the school as soon as possible

Please speak to your manager/HR to get a proof of critical worker letter.

Category B – home workers/ non workers

Many of our valuable and critical workers may not be on this list as they can work from home. If you are able to work from home or are unable to work for any reason, please do not send your children in to school unless you need to. If you do need childcare to fulfil a critical role from home please contact your manager to discuss if you need a letter.

Category C – becoming a critical worker

If you are not normally in the critical worker category but are asked to become one – thank you for helping! You now become category A and can request a letter to allow you to send your children to school if you need to, and to help you travel to work.

THANK YOU! To all our staff who are working tirelessly to keep vital front line services running for the community.
