##### **An overview of the work of Pauline Gibbons, including Setting up Students for Success in Writing by Steve Cooke – Friday 2nd October am**

This session will begin with considering the nature of effective scaffolding and then moves on to apply these principles to the teaching of writing. Sometimes known as the 'teaching and learning cycle', the scaffolding involves a number of stages in the writing process: modelling the field, modelling the text type, joint construction of text, individual writing, and self-editing.
